Hiba Abdul Khaliq

OBJECTIVE

Hey, I am Hiba Abdul Khaliq an aspiring web developer. I'm a driven and passionate web developer who has immersed myself in learning TypeScript, JavaScript, and CSS. My journey in web development has been hands-on, building a diverse portfolio that showcases a variety of projects. From creating a simple calculator and word counter to developing a console-based to-do list, currency converter, ATM, and even an adventure game and much more, I'm continuously pushing my skills to new heights.

EXPERIENCE

My current enrollment in a generative AI course is a testament to my commitment to staying ahead in the field, as I'm sharpening my skills to craft innovative and impactful web applications. I've built a diverse portfolio that showcases a variety of projects. From creating a simple calculator and word counter to developing a console-based to-do list, currency converter, ATM, a restaurant website, a job portal website using Next.js and Tailwind CSS
